

Ratchet Lever Hoist

Model LE-AL Model- Aluminum

Lifting Equipment Ltd

Lever Hoist

Ratchet Lever Hoists, LE-AL Model (Aluminium)

- The LE-AL model ratchet lever hoist is available in capacities ranging from 750Kg to 3000Kg
- The universal ratchet lever hoist is a must have item in any service vehicle
- The enclosed housing, hand lever and hand wheel are manufactured from premium aluminium
- Due to precise needle bearings the hoist may be operated with minor effort. Its low tare weight is a bonus, when the hoist needs to be carried over longer distances to different projects
- The chain guide is cast into the body to guarantee faultless chain movement. The standard free chaining device servers to rapidly attach the load or to pull the chain through the hoist in both directions.
- The hoist is not suitable for passenger elevation purposes
- The LE-AL Ratchet Lever Hoist has zinc plated alloy chain which is un-painted.
