

Manual Chain Hoist

VS Plus Manual Chain Hoist

Lifting Equipment Ltd

VS Plus Manual Chain Hoist

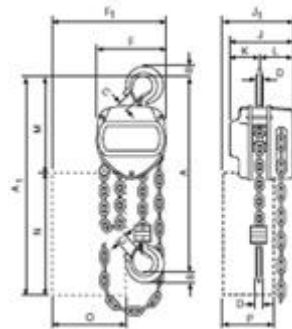

Available in capacities from 500 up to 20,000Kg. The VS manual chain hoist has tough all steel construction, which comprises a roller / ball bearings fitted to all the rotating parts; these increase efficiency as the bearings reduce friction. The cover has special slots which together with the design of the chain wheel prevent the hand chain from de-railing and blocking. The hardened load chain sheave has 4 precision machined pockets. The VS chain block has 2 guide rollers and 1 chain stripper to ensure the correct alignment of the chain over the load sheave. All of the brake parts are made from zinc plated quality materials and in addition are chromalized for extra corrosion protection. We can also supply an optional chain container, to store surplus chain.

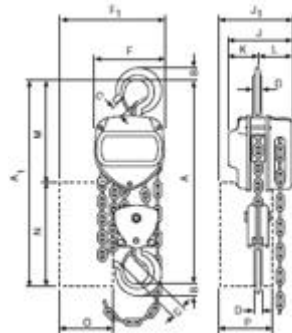

Model	Capacity kg	Number of chain falls	Chain dimensions d x p in mm	Hand chain overhaul for 1 m lift m	Lift per 1 m hand chain overhaul mm	Pull on hand chain at WLL daN	Net weight at standard lift kg
